

Situational Coaching and Counseling for One-on-One Help

**If you have a situation and need expert insight...
Use our Situational Coaching Plan to
Save Time and Maximize Results!**

Speak directly to one of Richard's highly-experienced certified coaches and gain insight into best practices and clear guidance and direction for your situation. Here is how it works:

Step 1:

Call our office at **941-828-3600** to schedule the next available mutually agreed on time (usually within the next 24 hours) you want to discuss your situation and deposit \$450.00 (for one hour of Coaching) into your personalized Coaching Account.

Step 2:

At the appointed coaching time, call our office at **941-828-3600**, talk as long as needed to explain the "situation" and you will receive clear answers and insight from "your coach."

The best part is that any time you don't use doesn't just disappear. It remains on your account with us for future use. For example: you purchase 60 minutes. Your first call is 21 minutes. You have 39 minutes on account for subsequent situations in which you want to be coached through.

Please note that you can send your situation in advance of your coaching call via email to save call time.

We look forward to moving you forward!

Please complete an Inquiry Form to discuss your Coaching Requirements.
